

Report illegal dumping or chemical spills into the East Coventry Township stormwater system or its waterways. Because illicit discharges allow pollutants to enter local waterways that may cause public health concerns, produce unpleasant odors, and harm aquatic life, an Illicit Discharge Hotline has been established for citizens to report illegal dumping or spills into stormwater drains and local waterways.

If you have seen or know of an illicit discharge, please report it immediately by calling the East Coventry Police Department's non-emergency telephone number at 610-495-0119.
