Costs of Construction and Connection of Building Sewers. All sewer costs and expenses of construction of a building sewer, and all costs and expenses of connection of a building sewer to a public sewer, shall be borne by the owner of the improved property to be connected. The owner shall indemnify and shall save harmless the Township and the Authority from all loss or damage that may be occasioned, directly or indirectly, as a result of the construction of the building sewer and/or the connection of the building sewer to the public sewer.

Inspection and Approval of Building Sewers.

- A. No building sewer connection, maintenance, repair and/or replacement shall be covered until it has been inspected and approved by the Township, as provided in and by the Township technical specifications and other applicable rules, regulations and requirements. If any part of a building sewer is covered before so inspected and approved, it shall be uncovered, at the cost and expense of the owner of the improved property, for such inspection and approval.
- B. All such inspections and approval by the Township shall be at the cost and expense of the owner of the improved property.
- C. All such inspections by the Township shall be undertaken by the Township Engineer, and shall be completed not less than forty-eight (48) to seventy-two (72) hours after the Township is given notice by the owner of the improved property that the uncovered building sewer is ready for inspection.
- D. Unless otherwise directed by the Board of Supervisors, all such approvals by the Township shall be given by the Township Engineer.

Provide detailed description of existing and/or proposed buildings/structures and use(s) of Improved Property (for Township's use in calculating required capacity allocation), and attach sketch or drawing or enclose other documents if appropriate or required by Township:
